### HOW WE CAN HELP

Every claim is assessed individually, taking account of applicable law, jurisdiction and prospects of recovery.

#### 01 INJURY, ILLNESS OR DEATH

Claims against shipowners, employers, insurers or P&I Clubs for medical costs, lost earnings, disability, loss of a breadwinner and non-pecuniary damage.

#### 02 WAGES AND EMPLOYMENT

Unpaid wages and overtime, unlawful deductions or dismissal, termination of the contract and entitlements under collective agreements.

#### 03 REPATRIATION AND ABANDONMENT

Return-home expenses, necessary medical care, outstanding wages and protective measures in seafarer abandonment cases.

#### 04 ADDITIONAL COMPENSATION

We assess whether further compensation may be recovered when an earlier settlement was substantially below the amount available under applicable law.

### HOW WE WORK

From the first enquiry to recovery and enforcement of the judgment.

#### 01 INITIAL ENQUIRY

You provide the vessel name and IMO number, flag, date and place of the incident, rank, employer and a short description of what happened.

#### 02 ASSESSMENT AND AGREEMENT

We review the documents and identify the grounds for the claim, applicable law, jurisdiction, responsible parties and limitation periods.

#### 03 INVESTIGATION AND EVIDENCE

We conduct an independent investigation, gather evidence, arrange expert examinations and carry out the legal analysis.

#### 04 CLAIM AND RECOVERY

We negotiate and handle court or arbitration proceedings, enforce judgments, arrest vessels and search for other assets.

#### Analysis first - strategy next

We assess the prospects only after reviewing the documents and circumstances.
